PREFACE

The Economic Intelligence Committee authorized this survey in order to facilitate the exchange of information on the economic intelligence research activities and programs of the US Government relating to the Soviet Bloc. The survey includes projects, with a security classification through SECRET, that were either in progress or completed during the calendar year 1952; and supersedes the previous report issued 11 December 1952, covering the period 1 January 1952-30 September 1952. The Economic Intelligence Committee plans to keep the annual survey current by issuing a quarterly supplement reporting projects completed, cancelled, or initiated during each quarter of 1953.

The projects in the survey are indexed by subject--within the subject break-down projects are further divided into three groups: (a) IAC Agency projects, (b) Non-IAC Agency projects, and (c) National Intelligence Surveys. Only five Non-IAC Agencies were engaged in economic intelligence research on the Soviet Bloc: Department of Agriculture, Treasury Department, Department of Commerce, Federal Reserve System, and the Mutual Security Agency.

External research projects and reports undertaken by non-government social science research organizations on the Soviet area are not included in this survey. This material is compiled by the External Research Staff of the Department of State. The reports covering 1952 are listed in External Research Reports Nos. 23, 25, 27, and 28. (For further information on external research reports refer to the Department of State, External Research Staff, Code 191, extension 3169.) Projects contracted by government agencies either with private research organizations or in some cases with other government agencies, are not included in the survey.

Requests for information on any of the projects listed in this survey should be referred to the originating agency.
Use of the following references will expedite such requests:

IAC Agencies	Office	Telephone No.
Department of State	Office of Intelligence Research (OIR), Projects Officer, Rm. 101, State Annex #1	Code 191 Ext. 4148-4149
